

DISPLAY CUTTING AND LAMINATING SERVICES

CLEANROOM & LAMINATION

Benefit from Swiss high precision manufacturing for your dust-free production requirements.

With our ISO class 5 certified cleanroom, we can offer display lamination or other assembly services in a fully controlled and clean environment, in compliance with high quality aerospace standards.

DISPLAY CUTTING SERVICES

Utilise THOMMEN's expertise in complex manufacturing processes and make use of our latest display cutting and production capability.

THOMMEN can cut LCD displays to customized sizes for applications in aircraft cockpits or mission systems, thereby offering new alternatives to the aerospace industry.

ISO Class 5 certified
